Stat-447-Peer-Evaluation

Zekun Li, Jialong Li

12/8/2022

1. Jialong came up with the idea to develop an R package dealing with feature alignment. Both Jialong and Zekun brainstormed the methodology for feature matching.
2. Both Jialong and Zekun wrote a significant amount of code during the development process.
3. Jialong was primarily responsible for feature blocking
4. Zekun was primarily responsible for feature matching
5. Zekun was primarily responsible for the statistical distance part of the project. Jialong was responsible for the rest. Both of us actively examined the many challenges we encountered and got great insights from each other.
6. Jialong organized our development documentation and the structure of the deliverable report.
7. Zekun drafted the report using Rmarkdown. Both Jialong and Zekun were responsible for reviewing it.
8. Jialong organized our work into a functional package. He was also responsible for updating the work to GitHub.
